What is Laplace ID?

New registration for Laplace ID

Laplace System

Once you register your Laplace ID, you can use it as a common ID for Laplace System Co., Ltd. web services, smartphone application, and software.

Of the above, only Solar Pro (Network Authentication Edition) is available for customers outside Japan.

 Instead of using a login ID for each L· eye Monitoring Screen, you can access all L· eye Monitoring Screens with a single Laplace ID.
 * It is necessary to register the power plant from the Plant management on My page. (See P.2)

[Step 1]

Go to **https://laplaceid.energymntr.com/** and click on **Sign Up**.

It can also be accessed from our website. https://www.lapsys.co.jp/en/

[S	te	p 2)	
-			

Enter your ID (mail address) and password, then click Next.

[Step 6]

- My page will be displayed. Your registration is now complete.
- * Next, let's register the power plant with the Laplace ID! Registration eliminates the need to log in each time and provides stress-free access.
- * On the User profile screen of My page, you can edit your ID, password, and personal data, delete your ID, and view your account information. (See P.3)

See P.2 for power plant registration procedures.

Register your power plant with your Laplace ID (This service is not available to customers outside Japan.)

[Step 1]

If you are currently logged in with a Laplace ID, log out.

Next, open the settings menu of the L• eye Monitoring Screen for the power plant you want to register to your Laplace ID, and click **Authorization Addtional Settings**.

B			
Change ID & Password	Status Error Settings	Error Settings	Email Settings Menu
1		P	9
io Data Detection Settings	Formula Settings	Access Token Hanagement	Performance Analyzer Settings Hens
2	*		2
User Portfolio Settings	weather Information Settings	Authorization Additional Settings	Power Facilities

[Step 2]

Enter your Laplace ID and click Code Sending.

When the confirmation message **The Activation Code sent** appears, click **OK**. This completes the L• eye Monitoring Screen. Please log out from **i**.

[Step 3]

Log in to your Laplace ID and click **Open** in the Plant management in the service list. <u>Enter the activation code</u> you received and click **Activate**.

Laplace 8 Power Plant		Admin Poda	530	Create

If the power plant does not appear in the list of sites after a while, please refresh the screen by pressing the refresh button on your browser or the F5 key on your keyboard.

[Point]

Click on the name of the power plant to display the L• eye Monitoring Screen.

Even if you use multiple monitoring screens, you do not need to log in for each power plant if you are registered with a Laplace ID.

For Customers Using the Group Monitoring Screen

Registering the activation code on the Group Monitoring Screen to the Laplace ID allows you to register all grouped power plants at once. Access the settings menu of the Group Monitoring Screen in [Step 1] and follow the same procedure for registration.

* If you wish to add a new monitoring screen to the Group Monitoring Screen you are currently using, please contact your sales representative as before. If you wish to delete a screen, you must also submit a request.

My Page Screen Transition Diagram

When you log in to My page, the User profile screen will appear. Clicking each button or tab will take you to the respective screen.

Service List Screen

Available services such as Plant management and Integrated monitoring will be displayed.

Click **Open** to go to the screen of each service.

- (* 1) The names of all accounts to which you belong are displayed only if you belong to an account.
- (* 2) This will only appear if the account to which it belongs has a license for the Solar Pro Network Authentication Edition.

Click **Open** to check the status of your Solar Pro Network Authentication Edition license key or to download the SolarPro installer.

 (* 3) This is only displayed if you are set as the administrator of the account to which you belong. Click here to open the account management screen or the account selection screen (if you have been set as an administrator for multiple accounts). Please refer to the "Account Management Screen Startup Guide" for details on the account management screen.
